GOVERNMENT DESIGNATION	MANUFACTURER'S DESIGNATION	QUALIFICATION REFERENCE NUMBER
UR	2512 A/B	46058-38009-13

A retention report in accordance with paragraph 4.5.4 of MIL-I-46058C, Amendment 7 shall be submitted to this Center every 24 months or loss of qualification may result. A report is required for each of your products and plants qualified to MIL-I-46058. Each report should include a production summary of lots presented for group A testing, and copies of the actual group B and C test reports. The original data must be retained by your company and is to be made available to authorized government representatives on request. If the manufacturer has no certified production of a qualified product during the reporting period, the manufacturer must indicate this in the retention report; DLA Land and Maritime reserves the right to request evidence of the need to continue listing of the product on QPL-46058. Your first reporting period for this product listing is from **April 11, 2013, through September 30, 2014** and is due to this office by **November 30, 2014**.

Manufacturers are required to inform DLA Land and Maritime-VQE within 3 business days if a failure occurs during group B or group C testing or prior to issuance of a GIDEP Alert and/or Problem Advisory on product represented by this qualification. Because we are held responsible for the accuracy and currency of this QPL, please let us know if your company discontinues production of these products. No changes are to be made in the design and construction of the products qualified without the approval of the qualifying activity, DLA Land and Maritime-VQ. If you have any questions, please contact Mr. Lowell Sherman at vqe.ls@dla.mil or 614-692-0627.

Sincerely,

/SIGNED/
